Observation of Classes

Principal

This year was also the year of online classes. Now that the teachers and students were proficient in handling online classes the teachers started being innovative. They started having competitions, assemblies, functions also on line and they were a huge success. The Teachers came back to school and had online classes from the school premises, whenever the government asked us to, we had regular offline classes mainly for the Senior School 9-12. Classes Nursery to VIII continued with their online classes. Pre

board Examination were held offline. Examinations were held offline for Classes IV-XII. Children started coming back to school initially the numbers in the junior classes were few but it slowly built up. This time the promotions were based on actual papers. PTM's were held offline, results were declared and the school and teachers started getting ready for regular school. When the junior children started coming to school they faced problems, they could not sit for long hours, they were restless but the general feeling was one of happiness and relief. The children had friends to talk to, played games, sang, laughed and studied. Great to be back to normal.

The teachers submitted their Lesson Plan to the Vice Principal, the HOD's and the Principal.
